Sage X3 for Pharmaceuticals & Nutraceuticals

sage X3 for Pharmaceutical & Nutraceutical

Adopt a faster, simpler, more flexible solution with full business management, CRM, HRM and Business Intelligence all rolled into one seamless solution. With Sage X3, you are choosing the next generation of business management software for complete end-to-end management, which will help you stay agile and meet whatever demands come your way.

Sage X3 runs your business faster than ever before, with a cohesive, enterprise-class solution to manage all of your core business processes—from financials to procurement, warehousing to distribution, budget and cost management as well as inventory management. It also accelerates collaboration and reporting, and delivers real-time insight into all costs and operational performance. Sage X3 is ready for you. Built-in functionality for best practice financial management combined with the ability to accommodate any of your unique rules and processes. It's also easily scalable—so you'll never run out of capacity again—and quickly adapts to your changing needs, driving efficiency and helping you manage costs and control budget spend.

Running your business does not have to be complicated

Get more done, faster.

Increase user productivity and accelerate adoption with an intuitive web user interface that users can easily personalize to work the way they do, driving efficiency and eliminating administrative overheads.

Go where your business takes you.

Access your data on mobile devices, check your budgets, manage costs, approve purchases and view key performance indicators on the go on any device. Sage X3 includes a complete mobile framework to deploy specific applications to your workforce and stakeholders as you need them.

Take back control over your processes.

Eliminate inefficiencies, ensure compliance and streamline operations with end-to-end integration of your business processes to control costs and improve profits and controls.

Get the insight you need, when you need it.

Evaluate risks and monitor performance in real-time with user dashboards, self-service business intelligence and reporting tools delivered on premise, on mobile or in the cloud.

Gain agility and focus on your business.

Take advantage of enterprise-class business management functionality, security and scalability at a fraction of the cost and complexity of typical business management solutions. Simplify IT management and free up resources to focus on more important customer projects. Embrace the power of Sage X3 to easily manage unpredictable new requirements and manage change whilst delivering the desired level of transparency and accountability.

One system, anywhere at anytime.

Reduce costs by implementing a single system for your financial, procurement, inventory and process manufacturing needs. Replace legacy systems that inhibit performance through duplicate processing, weak integrations and an over-reliance on spreadsheets to make decisions.

Integration made easy.

Over time, many pharmaceutical and nutraceutical organizations have invested heavily in specific fit-for-purpose software solutions that are still required or they are needed as part of the transition phase to a new business management solution. Sage X3 delivers many integration possibilities whether batch or real-time using web services or java based technology. Interfaces that may be required include connectors to consolidation tools or operational systems such as procurement portals, existing payroll and HR solutions or custom applications to manage other line of business needs.

Key features that drive the success in this environment

- Stock status, shelf-life management and expiry tracking to ensure quality across your supply chain
- Formula/recipe and potency management
- Forward/backward scheduling based on your priority
- Replenishment and inter-site transfers
- Manufacturing process management (batch/continuous)
- Capacity planning (CRP) master production schedule (MPS)
- Mixed-mode manufacturing process planning

- Import Tracking and Landed Cost Management allows tracking of imported goods from the time of shipping until it's received in your warehouse, and permitting landed costs to be accurately calculated
- Extensive quality control and traceability of lots, sub-lots, ingredients and allergen
- Real time reporting and Analytics
- Budget commitments and planning with automated alerts and approvals
- Complete system navigation by business process for fast user adoption
- Integrated supply chain, HR & Payroll and CRM options available

Sage X3 delivers a prescribed pharmaceutical & nutraceutical solution

Manufacturers and distributors in the pharmaceutical and nutraceutical industries are increasingly under pressure to maintain their competitiveness whilst complying with an increasing array of regulatory requirements. Manufacturers of these products need flexible industry-specific functionality in order to comply with international regulations from the FDA.

Sage X3 supports these organizations by providing them with automated support for mission critical functions. Now is the time to review the technologies available to take back control and deliver an exceptional experience both to the customer and your stakeholders.

Sage X3 can scale to thousands of users and seamlessly integrate to external systems. Sage X3 is the natural choice to deliver a prescribed pharmaceutical and nutraceutical solution using pre-defined business rules and processes out of the box together with a superior user experience that drives the market.
